

BQT Vega 2 Dome Camera

The BQTVega2 dome is a high resolution colour camera with a minimum of installation time suitable for demanding applications. When a discrete high-end camera is required for demanding application, the BQTVega2 camera is the right choice.

The BQTVega2 dome is a high resolution colour camera with a minimum of installation time suitable for demanding applications. When a discrete high-end camera is required for demanding application, the BQTVega2 camera is the right choice. Instead of mounting an ordinary camera with a varifocal lens and bracket, this is the solution, because it simply replaces all this. You mount this camera on the wall or in the ceiling, apply 12VDC/24VAC to it and connect the video, then you are ready to point the camera to the required direction and adjust the viewing angle that suits the purpose, and you then are off to the next job. It cannot be simpler than that, yet the camera still provides excellent picture quality. Available with two different lenses (2.5-6 mm or 2.9-10 mm)

Key Features

- Aesthetic and compact design
- High resolution - 550 horizontal TV lines
- Integrated 2.9-10 mm or 2.5-6 mm DC iris varifocal lens
- 0.3 lux sensitivity
- Wall or ceiling mount
- Auto white balance
- AGC on/off
- BLC on/off
- Flickerless on/off
- 12VDC/24VAC supply

- Service video out for easy adjustment
