

Leading the way in security

Scantronic

## 480 COMMERCIAL TWINTEC

DETECTORS

The Scantronic 480 Twintec indoor detector combines state of the art Microwave and Passive Infra Red (PIR) technologies in a single unit in order to detect an intruder. These combined technologies are used where the environment of the installation to be protected is very turbulent.

The 480 detector is suitable for your office, your shop or any commercial or industrial buildings. Designed to fit perfectly with any décor, the 480 is stylish and compact, extremely robust and very discreet.

The Scantronic 480 uses the latest technology and represents the future in signal processing and optical lens technology to lead the industry in detection accuracy, false alarm immunity and ultimate reliability. The 480 detector uses modern techniques which eliminate the many types of interference that affect reliability of traditional detectors to guarantee superior long term performance and dramatically reduce false alarms.

The Scantronic 480 has a coverage pattern of 12 metres by 90° that can be adjusted to suit your installation requirements, with temperature compensation and an advanced white light filter built in to minimise false alarms. In addition the 480 has automatic blocking detection to ensure that the detector has a clear detection path at all times.

Fully sealed optics provide full protection against draught, dust and insect ingress, offering a high level of environmental immunity and reducing the burden from repeated false alarms. Scantronic have designed the 480 to meet the most professional alarm installation standards and yet have made the products easy to install saving installation time.

The 480 offers exceptional value for money with many features incorporated to give a high level of security benefit and total peace of mind.

# 480

## COMMERCIAL TWINTEC

### TECHNICAL SPECIFICATION

<b>Type</b>	Residential or commercial Twintec indoor movement detector combining PIR and microwave
<b>Coverage</b>	Protects a 12 metre range over 90 degrees with range adjustments on the microwave
<b>Signal Processing</b>	Digital signal processing offering double protection by combining the detection of body movement and heat to provide optimum capture performance in discriminating between actual and false alarms
<b>Sensor Element</b>	Dual element pyroelectric sensor & microstrip DRO stabilized type, frequency 2.45 GHz
<b>Detection Zones</b>	36 detection zones on 2 planes
<b>Adjustment</b>	2 position vertical adjustment scale; FAR and NEAR
<b>White Light Filter</b>	White light protection as part of the main lens to minimise false alarms caused by intense white light e.g. car headlamps and sunlight
<b>Lens</b>	Cylindrical plus Fresnel
<b>Sealed Optics</b>	Fully sealed optics to provide full protection against draught, dust and insect ingress
<b>RF Immunity</b>	Careful circuit design and use of surface mount components gives high levels of immunity from radio interference. Greater than 30 V/m
<b>Temperature Compensation</b>	Adjusts the sensitivity as temperature changes
<b>Microwave Supervision</b>	Self test motion simulation. Trouble indication and output
<b>Alarm Indication</b>	Red LED lights for 1.3 to 5 seconds if both detectors trip
<b>Alarm Output</b>	Reed relay, normally closed. Max 100mA/30 VDC - 18 $\Omega$ internal resistance
<b>Event Counter</b>	Selectable, 1 or 2 motion events
<b>Tamper Contacts</b>	Normally closed, 50mA/30 VDC
<b>Masking Detection Delay</b>	About 60 seconds
<b>Masking Indication</b>	LED alternately flashes green and red and TRB output pulls LOW until the detector is reset
<b>Mounting</b>	Height up to 3.6 m. Corner mounted or wall mounted
<b>Local &amp; Remote Walk Test</b>	Test input to enable/disable the walk test LED remotely
<b>Automatic Testing</b>	On power up
<b>Current Consumption</b>	28mA @ 12VDC
<b>Voltage Range</b>	9 to 16 VDC
<b>Operating Temperature</b>	- 10°C to 50°C
<b>Dimensions (H x W x D)</b>	117 x 65 x 47mm
<b>Weight</b>	109g
<b>Warranty</b>	6 years

Scantronic is a leading brand of Cooper Security Ltd, part of Cooper Industries, employing over 28,000 people in 100 manufacturing sites around the world.

Scantronic manufactures security equipment for all types of commercial and domestic premises. The range is comprehensive, offering every type of solution from multizone hard-wired and wirefree systems, to digital and voice communicators, to detectors and social alarms. Installers trust us to deliver cost effective products with the highest quality of field and support services to ensure you receive the best and most reliable systems to secure you and your premises.
