## VAX-CRD-SD PROXIMITY CARD

The VAX-CRD-SD Proximity Card sets the electronic security benchmark for 125-kHz proximity cards. Based upon proven contactless digital radio frequency identification (RFID) technology, this card interfaces with the Vicon VAX access control system by complying with the Wiegand communication protocol. It offers value-add features such as MAXSecure™ and fleaPower™ and support VAX proximity card and tag technologies. Additionally, VAX cards and tags are passive devices, eliminate maintenance by requiring no battery, and can be ordered to support several proximity reader technologies.
