

ACT 5

Product Overview

The ACT 5 digital keypad is an excellent addition to the range of standalone access control products. With it's "no frills" specification, the only requirements are access and egress. The ACT 5 comes in a stylish polycarbonate housing with stainless steel keys. It may be surface or flush mounted on to a standard single gang electrical back box.

Main Features

- 10 User codes
- Programming Code
- Push to release button input
- Tri-colour LED and Buzzer indicators
- Door relay timer (5 to 255 seconds)
- Incorrect code lockout (20 seconds)
- Potted electronics

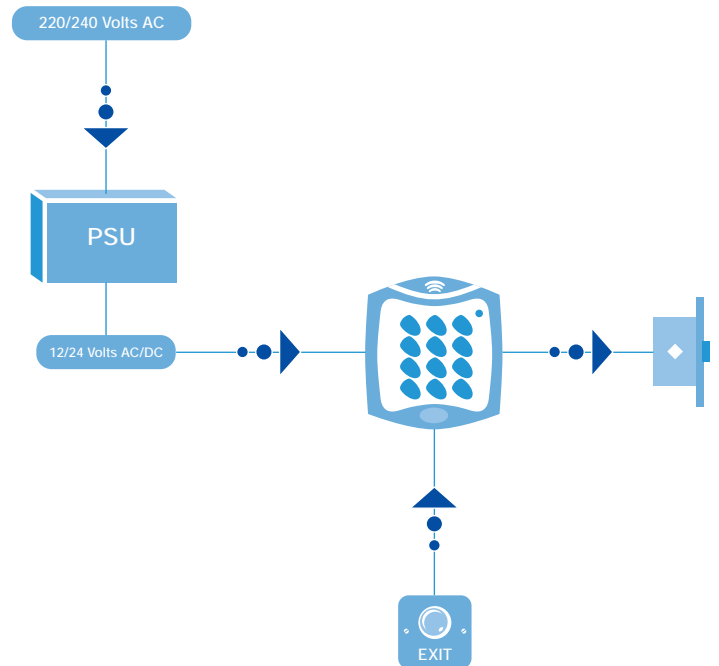

Installation / Specification Guidelines

- The ACT 5 requires an operating voltage of 12 to 24 volts AC or DC
- 5 amp lock output
- The ACT 5 can be installed either indoors or outdoors (IP67)
- Operating Temperature: -10 to +50 C
- The ACT 5 can be flush or surface mounted
