# New Product Release
## ACT5prox Digital Keypad + Proximity

### Main Features

- 50 Users
- Operating modes are Proximity, PIN and Proximity or PIN only.
- Keypad Backlighting
- Incorrect code lockout
- 5 amp door relay output
- Users may be deleted
- Indoor and Outdoor Installation (IP67)

The **ACT5prox** Digital Keypad with Proximity is a low cost, easy-to-use standalone access control product.

Keypad backlighting enhances functionality at night or in poor light conditions.

Operating modes are Proximity, PIN and Proximity or PIN only. Access to the secured area is gained by either inputting a pin code or presenting a card. For maximum security a combination of both can be used. The **ACT5prox** accepts up to 50 users with unique PIN Codes and ACTProx Cards / Fobs.

The **ACT5prox** is contained in rugged polycarbonate housing, with stainless steel keys and potted electronics. The **ACT5prox** has a rating of IP67, allowing for indoor and outdoor installation.

Targeted at domestic and small commercial premises the **ACT5prox** will be a popular addition to the ACT range of standalone Access Control products .

Available from all ACT Distributors.
