A Different Class Of Display

M-Series Displays

NeoV Crystal Optic Filter

Triple coated on both sides, the NeoV Crystal Optic Filter offers anti-glare, anti-reflective properties, while delivering greater color definition.

MVA Technology

Wide angle viewing technology offers greater viewing clarity even when the display is seen from different angles.

Video In Port

Connect DVD, VCR or other video devices directly via a video in port.

Built-in Speakers

Eliminate the need for external speakers, and enjoy a rich multimedia experience.

360 Degree Swivel

Built-in 360 degree swivel base ensures obtaining the optimal viewing angle.

USB Connector

Four powered USB ports maximize the connectivity of all USB peripherals.

Total Flat Display

A completely flat display, with absolutely no curvature, generates a truer and less distorted view.

Auto-Adjustment

Automatically adjusts screen settings for an optimal image, without changing settings manually.

LCD Panel Protection

Protects the LCD panel from potential damage caused by repeated touching of the surface.

OSD

On-Screen Display (OSD) makes adjusting the display settings quick and convenient.

Security Lock

Increase security by anchoring the LCD display to an immovable object. Compatible with Kensington® security locks.
