Fixed and tilt-down combined cabinet base camera poles

The Altron AW 1698 range of combined cabinet base camera poles are a cost effective solution for mounting telemetry, power supply, fibre optics and other equipment integrally within one unit, giving a neat and secure installation. They are available in both fixed and tilt-down versions.

Standard Equipment

Secure locks, treated base board, earthing lugs, column spacer, anchor bolts and templates, internal padlock facility (on tilt-down models), sealed door with continuous neoprene gasket.

Features

- Ideal for commercial and industrial applications
 - Houses equipment inside pole making a neat and secure installation
 - Tilt-down option for easy access and servicing of camera equipment at ground level by one man
 - Stable mounting for CCTV pan and tilt cameras
 - Durable and low maintenance – all materials and components are non corrosive
 - Demountable winch for secure installation and reduced cost in multiple installation
 - Cabinet door is flush fitting with neoprene gasket and 2 secure locks as standard
 - Cost savings where separate cabinet would otherwise be used
 - All Altron camera mounting bracketry fits directly to pole top
- Full range of Altron accessories for a complete and professional installation
 - Pole can be padlocked internally for increased security on tilt-down version

Design & Manufacturing Standards

- Manufactured from high tensile steel to BS 4360 43C/50C/43A, EN 10219 S275J2H S355J2H
- Hot dip galvanized to BS 729 (1971), ISO 1461 (1999) after fabrication
- Welding procedures conform to BS 5135
- Design wind loadings based on CP3 Chapter V Pt 2 (1972) & BS 6399 Pt 2 (1997)

Accessories & Options

- Pole venting
- High security lock
- All fixed camera bracketry from Altron accessories range
- Anti climb guards
- Variations on cabinet size
- Twin compartments
- Swan necks for dome camera mounting
- Pole mounting bracketry for fixed/PTZ cameras and PIR detectors
- Poles can be manufactured to exact height requirements
