

MicroDome™

Sometimes Less is More: H.264 Micro-Sized Recessed Dome IP Camera

Arecont Vision introduces the MicroDome™ megapixel IP camera. The MicroDome™ offers all of the great features of existing Arecont Vision megapixel camera technology like superior image quality and the industry's fastest frame rates, and now in a much smaller, more discreet housing. With an integrated mechanical day/night switcher and pixel binning in 3 and 5 megapixel, the MicroDome™ has excellent low-light capabilities. With an option for true Wide Dynamic Range of up to 100dB at full resolution there are no lighting conditions too tough for the MicroDome™.

Low Profile Design

Dual Encoder H.264/MJPEG

True Day/Night with IR Cut Filter

Vandal-Resistant Dome Housing

Pixel Binning Mode on 3 and 5MP Models

Wide Dynamic Range on 1080p and 3MP Models

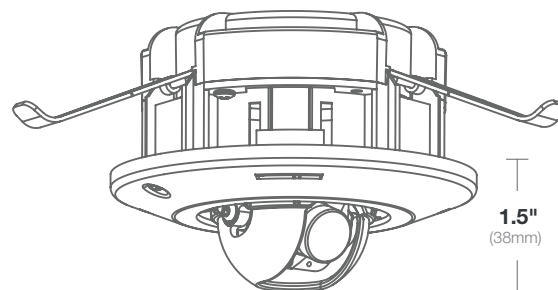

All-in-One PoE and Integrated Lens

More Features:

- ONVIF and PSIA
- Dual Encoder H.264/MJPEG
- Multi-Streaming
- Bit Rate Control
- Privacy Mask
- Flexible Cropping
- 1024 Zones of Motion Detection
- Forensic Zooming
