

## ATA-8C Series CyberDome - Indoor & Outdoor Pendant Installations

**ARITECH**

- 1 8" pendant mount dome
- 1 Variable speeds up to 400°/sec
- 1 Integrated colour or B/W camera
- 1 16x optical zoom lens
- 1 2x-8x electronic zoom
- 1 Auto iris with manual override
- 1 Auto/manual focus
- 1 Backlight compensation
- 1 64 programmable presets
- 1 Preset titles
- 1 16 zone titles
- 1 Up to four camera tours
- 1 Programmable NVRAM
- 1 360° continuous pan
- 1 Quik spin™ target tracking
- 1 Indoor & outdoor housings
- 1 Twist-on-Dome attachments
- 1 Quick release connector
- 1 24 V ac/16 W input power (indoor)
- 1 Twisted pair control

Programmable non-volatile memory allows the CyberDome to be customized at setup, with options such as programmable auto pan and preset tour speeds, return to home position, auto colour balance, pan/tilt invert, proportional zoom speeds and video synchronization.

Optical disk readers keep track of the camera's position, and high quality gold slip rings allow the CyberDome a continuous 360° pan. When a target passes directly under the CyberDome, the Quick Spin™ feature allows the camera to rapidly rotate 180° and continue to follow the target. Four microprocessors control the camera's pan/tilt movement with continuous-duty stepper motors.

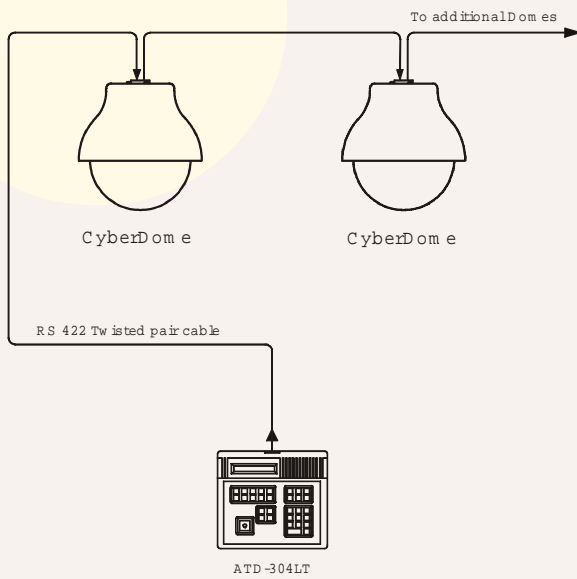

The CyberDome is available in both indoor and outdoor pendant mount housings,

allowing installation in most surveillance applications.\* (The outdoor models can be ordered with an optional 50 watt heater/fan). The unit is simple to install, featuring twist-on dome attachments, and a quick-release connector that allows the entire pan/tilt assembly to be easily removed. The pendant housings are designed to connect to the end of a 1.25" NPT pipe, or to the ATA-02-12 wall bracket. To meet individual needs, the CyberDome can be ordered with clear, tinted, or mirrored acrylic lower domes.

All CyberDomes use a 24 V ac power input and are controlled via twisted pair cable from one or more remote ATD-304LT keypads. Removable terminal strips are provided for cable connections, and all ICs are socketed for easy replacement.

*The **ATA-8 CyberDome™** is a discreet, variable speed pan/tilt/zoom dome capable of speeds up to 400° per second. Available in an 8-inch pendant mount, the CyberDome uses an integrated colour or black-and-white camera with a 16x optical zoom lens, and 2x-8x electronic zoom. Features include auto iris with manual override, auto or manual focus, backlight compensation, 64 programmable preset positions, preset and zone titling, and up to four camera tours.*

## Typical application

## Cutaway view - Outdoor pendant mount

## Mounting instructions

Corner mount bracket (optional accessory)

Pole mount bracket (optional accessory)

## Dimensions

All measurements in millimeters

## è Technical data

### **Electrical**

Input voltage	24 V ac, 50 Hz PAL
Power	16 VA (70 VA with E Option)
Control	
Input signal	RS 422
Signal format	Digiplex, 2400 or 4800 Baud
Video output	Composite, 1 Vp-p
Connectors	
Video	BNC
Control	Terminal strip
Power input	Terminal strip

### **Mechanical**

Weight	2.5 kg
Construction	
Pan/Tilt	32 mm Aluminium/Delron frame
Housing pendant	47 mm ABS Plastic
Dome	15 mm Acrylic
Finish	
Housing	
Indoor	Black
Outdoor	Black interior, white exterior
Pan/Tilt	Black anodized
Camera	Black
Dome	Clear, tinted, chrome mirrored or gold mirrored

### **Operational**

Pan travel	360°
Tilt travel	90°
Speed	
Manual	1~80°/sec variable
Preset	Up to 400°/sec; 200°/sec average point-to-point
Optical	
Light loss	Tinted Dome=1 f-stop Mirrored Dome=2 f-stop

### **Colour Camera**

Signal format	PAL
Scanning system	2:1 Interlacing
Scanning frequency	
Horizontal	15.625 kHz PAL
Vertical	50 Hz PAL
Image sensor	1/4" Solid state interline CCD image sensor
Total pixels	795(H) x 596(V), 470K PAL
Effective pixels	752(H) x 582(V), 440K PAL
Lens	F1.4 f=4~64 mm, x16 Zoom video Auto focus

Angle of view	H: 47° (wide), 3° (tele)
Focus length	Inf. ~0.01m (wide) ~1.0m (tele)
Signal process	Digital signal processor IIIIR system
Sync. system	Internal/external
Horizontal resolution	More than 450 TV lines
Luminance S/N	More than 46 dB
Sensitivity	3 lux (AGC On, F1.6 (wide))
Usable sensitivity	2 lux
Video output	Composite, 1.0 Vp-p

### **Black and White Camera**

Signal format	CCIR
Scanning system	2:1 Interlacing
Scanning frequency	
Horizontal	15.625 kHz PAL
Vertical	50 Hz PAL
Image sensor	1/4" solid state interline CCD image sensor (B/W)
Total pixels	537(H) x 597(V), 320K CCIR
Effective pixels	500(H) x 582(V), 290K CCIR
Lens	F1.6 f=4~48mm, 12x zoom video Auto focus
Angle of view	H: 47° (wide), 4° (tele)
Focus length	Inf. ~0.01m (wide) ~1.0m (tele)
Signal process	Digital signal processor III system
Sync. system	Internal, Line lock
Horizontal resolution	More than 500 TV lines
Luminance S/N	More than 46 dB
Sensitivity	0.4 lux (AGC On, F1.6 (wide))
Usable sensitivity	0.08 lux
Video output	Composite, 1.0 Vp-p

## ATA-8C Series
