

AXIS Companion version 4

Video surveillance made simple.

AXIS Companion is a professional video surveillance solution designed for businesses needing basic monitoring of their premises, people and assets. The security system is simple to set up and use. It provides flexible user management and easy access to live and recorded HD video from anywhere using the included AXIS Companion apps. For peace of mind, push notifications can be activated so you get instant alerts when motion is detected. AXIS Companion scales seamlessly up to 16 cameras per location. It offers tight integration with all AXIS Companion cameras and the full flexibility of Axis comprehensive product portfolio.

- > **Easy and intuitive surveillance**
- > **Secure remote access to video**
- > **Mobile app for freedom of use**
- > **Alert notifications**
- > **Flexible user management**
