

TX300/TX400

The BBV TX300 and TX400 are very easy-to-use keypads for a single-camera CCTV system. It is easily installed into either a new or an existing system simply by connecting a BNC input and output, or twisted pair and a 9-volt supply.

Application Notes

The TX300 and TX400 provide full control of single pan / tilt / zoom camera installations. Compatibility with the full range of BBV telemetry receivers ensures the where the requirement is for only one camera, system design need not be compromised by limited features.

Like all BBV products, simplicity of use and aesthetic casework are inherent in the design.

TX300

A single channel desk top telemetry controller with camera control via 75ohm coax or twisted pair cable

Features

- Pan, tilt, iris, focus, zoom
- Lights
- Random pan (when used with the RX300)

TX400

A single channel desk top telemetry controller with camera control via 75ohm coax or twisted pair cable

Features

- Pan, tilt, iris, focus, zoom
- Wash, wipe, lights
- Autopan
- 8 Programmable presets (using RX100, RX400P, RX45X, RX55X)
- Optional joystick control for AC fixed speed heads or high speed DC heads and mini domes (DC heads require RX55X, mini domes require RX100)

TX300/TX400

Technical specification

TX300

Power supply	Plug mounted transformer 9Vdc 300mA supplied
Control functions	Momentary - pan, tilt, iris, focus, zoom Latching - lights
Connections	2 BNC connectors with passive loop through for video signal to be terminated at monitor
Dimensions	Width 254mm Depth 190mm Height 30mm
Weight	1.8Kg
Colour	Metal case powder coated RAL 7035

TX400

Power supply	Plug mounted transformer 9Vdc 300mA supplied
Control functions	Momentary - pan, tilt, iris, focus, zoom, hash Latching - wipe, autopan, lights 8 presets plus programming 4 additional relay drives available (when using RX400P)
Dimensions	Width 254mm Depth 190mm Height 90mm (including joystick)
Connections	2 BNC connectors with passive loop through for video signal to be terminated at monitor
Weight	1.85Kg
Options	DC Control with 3 Axis variable Joystick RS422 output for direct control of Starcard Converter + RX45X and RX55X
Colour	Metal case powder coated RAL 7035
