

SKA-100L Bolt contact, outdoor

www.boschsecurity.com

BOSCH
Invented for life

- ▶ Bolt contact in conventional technology
- ▶ For connecting to a conventional intrusion control panel
- ▶ VdS class C
- ▶ Conventional perimeter protection

Bolt contacts are used for monitoring the closure of on doors.

System overview

Certifications and approvals

Region	Regulatory compliance/quality marks	
Germany	VdS	G 194008, C [SKA/SKI 100]
Europe	CE	[ISC-SKA100, ISC-SKI100]

Installation/configuration notes

- Installation is carried out in the door bolt with the bolt contact being activated by the tongue of the lock. It should be kept in mind that only the second turn of the key in the lock actually activates the contact. To make any necessary adjustments, the bolt contact's operating spring lever can be bent.
- When installing in fire protection doors, ensure that no mechanical changes, except for the fastener bores, are carried out on the door frames.

Parts included

Quantity	Component
1	Bolt contact for perimeter doors (IP67), with cable

Technical specifications

Electric

Maximum operating voltage	30 VDC
Maximum loop rating	30 V / 2 A

Mechanical

Type of installation	Installation
----------------------	--------------

Enclosure

• Material	Steel plate
• Color	Gray

Dimensions (H x W x D)

• Without operating lever	9 mm x 26 mm x 18 mm
---------------------------	----------------------

• With operating lever	10 mm x 68.5 mm x 18 mm
• Connection cable	Ø 3.2 mm x 4 m

Environmental Considerations

VdS environmental class	II
Protection category	IP 67
Permissible ambient temperature	-40 °C - 85 °C
