FIRE & SAFETY SYMBOLSTM DATA SHEET

FIRE & SAFETY SYMBOLS is a software package designed to work with any VISIO or SMARTDRAW 'drag and drop' drawing package. It contains symbols of various equipment installed in buildings to reduce the risk of fire, for

example; fire extinguishers, fire exit signs, sprinklers and fire doors etc. In addition it also contains the full range of Health and Safety Executive safety signs. These must be displayed in work places as a legal requirement. FIRE & SAFETY SYMBOLS can save you having to buy these signs by printing them yourself.

Each symbol has "Custom Properties" so that specific information can be assigned to each individual shape.

FIRE & SAFETY SYMBOLS is a perfect accompaniment to the other Symbols and Images drawing software.

FIRE & SAFETY SYMBOLS is available in English, French, German, Italian and Spanish.
