

# PELCO Images™ DATA SHEET

PELCO IMAGES is a software package designed to work with the VISIO "drag and drop" drawing package. It contains digital photographic images for all the CCTV equipment in the PELCO product range. Each product has been digitally photographed in high resolution then converted to the Visio stencil format. This allows the images to be dragged and dropped quickly and easily on to the drawing page. PELCO IMAGES includes CCTV equipment such as cameras, control equipment, VCRs and monitors..

Model numbers have been assigned to each image and prices & description can also be assigned to allow shape reports to be created. The shape reports calculate the cost of a drawn system and list all the separate items of equipment, which is used.

The Images display an exact image of the model and can be used to produce individual data-sheets. PELCO IMAGES is a perfect accompaniment to our Symbols software. PELCO IMAGES is ideal for CCTV professionals who regularly use PELCO equipment and want to produce quick, professional looking CCTV system drawings at low cost.

<u>Hardware / Software</u>	<u>Requirements</u>
<b>PC &amp; Display</b>	486 33Mhz or higher with VGA or SVGA. Pentium recommended.
<b>PC Ram</b>	8 MB or above
