

# GUARDIAN

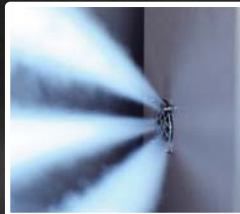

DEFENDING THE RISKS ASSOCIATED WITH CASH & VALUABLES IN TRANSIT

☑ Lightweight, portable unit ☑ Incredible close-quarter smoke generation ☑ Remote activation

## KEY FOB ACTIVATED

Allows for simple arming and disarming of the unit, range of up to 200m. The Guardian accepts multiple varied triggers.

## ANTI-RAID NOZZLE

The three-way anti-raid nozzle is designed to envelop a small space in the quickest time possible.

## PORTABLE

The Guardian needs to be lightweight as it is intended to be docked at each individual replenishment site.

## THE TECH SPEC

With the recent move to out of hours ATM replenishment Concept Smoke Screen have designed and developed the Guardian Smoke Screen and Securi-Dock.

Designed under consultation with the Metropolitan Police and Armed Response Units the Guardian trial is in full effect across a number of sites in the UK.

The two-part product consists of an ultra portable security-fogging generator that resides with a cash carrier when not in use. On ATM replenishment trips, the defence is made complete when the Guardian is married with the Securi-Dock installed at a customer's premises.

Both lightweight and rugged the portable unit is capable of being in a 'ready state' in less than 90 seconds with the option to pre-heat the unit prior to leaving the depot.

The high-powered generator boasts a wide range of features including the facility to accept multiple varied triggers and the ability to rapidly produce an incredible amount of security smoke via its anti-raid nozzle.

The Securi-Dock provides a fixed secure location for the Guardian to be placed, power, off-mains power support, triggering and event logs.

### FEATURES

- Totally unique two-part product
- Easy installation
- Compact, rugged casing
- Securi-Dock station
- British and European standard compliant
- £10 million product & public liability insurance
- Incorporates advanced E+ Series technology
- Produces 700m<sup>3</sup>/min security smoke
- Anti-raid multi-directional nozzle

### OPERATION

- On-board event log operation
- Accepts multiple varied triggers
- Push button programming
- Audio tones and LED display to show status
- Simple smoke control

### CONSTRUCTION

- Rugged & compact metal casing
- Lightweight and portable

### GUARDIAN DATA

- 41(H) x 16(D) x 38(W) cm (with handle)
- Weight 13 kg (full)

### SECURI-DOCK DATA

- 37(H) x 17(D) x 44(W) cm
- Weight 13.5 kg
