

SMOKE SCREEN SOUND BARRIER (S3B)

YOU'VE BLINDED THEM WITH SMOKE, NOW DEAFEN THEM WITH NOISE

☑ Originally developed for military applications ☑ Produces unbearable noise to confront intruders ☑ Completely harmless

AN EAR-PIERCING ALARM SYSTEM

The Smoke Screen Sound Barrier range provides an incredible complement to the Security Smoke Generators. Upon activation an intolerable wall of sound is created forcing any intruder to leave the area.

As with our entire range of security systems, the effect produced is perfectly safe. Additionally, the design of the S3B allows it to be unobtrusively installed in even the most contemporary of environments.
