**Made to the highest specifications without the designer price tag!**

Unique manual pan and tilt camera cradle

**One of the World's smallest** zero-grip high impact armoured domes. Built from solid aluminium due to its size and construction it is one of the toughest mini dome cameras in the world. The extra toughened polycarbonate cover has been rigorously tested to withstand a controlled 20 Joules test and the conventional uncontrolled 12 pound sledgehammer test.

**The Comet is designed** so it is very difficult to grip, With its low profile and unique manual pan and tilt camera cradle it is ideal for viewing along a wall. It is one of the most stylist cameras on the market today.

**Only the highest quality** colour and monochrome CCD cameras are fitted. the Comet comes complete with: 1.8 metres of power cable with BNC, Stainless steel tamper resistant screws and fixing screws.

Smoked dome cover as standard, clear dome cover optional.

**Ideal for:** Banks, Prisons, Shops, Schools, Car Parks, Airports, Post offices, the applications are endless.
