DATACARD® IDCENTRE™ SILVER IDENTIFICATION SOFTWARE

IDCentre Silver edition software includes a user-friendly set of tools for card design, production or a combination of these capabilities.

Configure your ID program

The modular platform of Datacard® IDCentre™ Silver identification software lets you configure the ideal solution for your ID card program. Separate packages for card design and card production give you the choice to combine elements of these capabilities at a central location or manage them separately from different workstations. Either way, you control a powerful blend of components for creating ID cards, reports and production forms.

Flexible, modular platform

• Use Datacard® IDCentre™ Silver Production software to customize the look of your cards, reports and production forms. Options include shape drawing, transparent backgrounds and ghost images.

• Datacard® IDCentre™ Silver Designer software offers image capture, data access and retrieval, and production capabilities.

• IDCentre Silver software is compatible with Datacard® CP40™ Plus, CP60™ Plus and CP80™ Plus card printers, and Datacard® Capture Pointe™ Series software.

• The software supports smart cards with a proximity card plug-in.

Static and variable graphic fields (with transparent color option)

In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)

Image and signature storage as BLOBs or files

Multiple images per record

Quick, advanced and stored searches

Crop and adjust existing photo

Data-driven production

Supports multiple-table databases

Supports Software Developer's Kit

Proximity card plug-in for smart cards

Auto-create Microsoft® Access 2000 database; databases supported include Microsoft Access 2000 or later; Microsoft® SQL Server 2000 and 2005; Oracle® 8*i*, 9*i* and Oracle 10*g*®; IBM® DB2® Universal Server 7.1 and 8.1

Wizard for managing user account privileges

Retrieve records from "today"

Retrieve records from "this week"

Online user's guide, online help and help desk support

USB hardware security key

Application- or activity-level user security (per computer or sytem wide)

Login timeout feature

Restrict project access by user

Secure user audit trail

Compatible with Datacard® CP40™ Plus, CP60™ Plus and CP80™ Plus card printers

Image capture options

File input

Datacard® Signature Pointe™ solution

Datacard® Visitor Pointe™ solution

TWAIN and Video for Windows capture devices

Datacard Capture Plug-in Tool

System requirements

Microsoft Windows 2000, XP (32 or 64 bit), Windows Vista (32 or 64 bit), and Windows 7 (32 or 64 bit) operating systems

Microsoft® Internet Explorer Web browser (v6.0 or later)

512 MB RAM

100 MB hard disk space for application
(not including database)

16-bit color/65,536 colors
(some cameras may require higher color)

800 x 600 screen resolution (1024 x 768 recommended)

CD-ROM drive

Available USB port
