## Portable Crowd Protection Barricades

***DURABLE. VERSATILE.  
READY WHEN YOU ARE.***

Keep events safe, organized, and under control with our high-performance Portable Crowd Protection Barricades. Engineered for maximum durability and effortless mobility, these barricades are the ideal solution for managing foot traffic, securing pedestrian areas, and creating clearly defined vehicle perimeters at events of any size.

American made and designed for quick deployment, our barricades provide a professional, secure presence while remaining easy to transport and store. Whether you're coordinating concerts, festivals, construction zones, public or private events, our barricades are built to withstand the demands of dynamic environments.

**Key Features Include:**

- Durable, yet simple designs for fast setup and breakdown
- Cabling system for secure, stable configurations
- Easily transportable and designed for efficient storage
- Custom branding and signage options available

Take control with a solution that balances strength, safety, and convenience—choose our Portable Crowd Protection Barricades to keep your space secure and your operation running smoothly.

DSC50

## The “S” Barrier

**PROTECT PEOPLE WITH STYLE.  
THE SMART SOLUTION FOR CROWD SAFETY.**

Whether you're securing an event, a facility entrance, or sensitive pedestrian zones, our steel road cones offer unmatched visual appeal with the crash-tested stopping power you need to keep people safe.

- **SC30 Crash Rating:** Built tough to stop a 2,430lb (1,100 kg) small passenger car at 30 mph (50 kph). *\*Requires an array of three*
- **Engineered Aesthetics:** Clean, modern lines complement your facility, event, or streetscape
- **Budget-Friendly Performance:** Advanced vehicle mitigation at a fraction of the cost of permanent infrastructure
- **Portable & Deployable:** Move and position effortlessly with the included three-wheel dolly-style transporter. Fast setup, faster protection
- **Lock-on-Impact Technology:** Nudge-tested to tip, trap, and lock under vehicles—even at lower speeds—to stop threats early
- **Flexible Deployment:** Effective alone—powerful in numbers. Units are individually rated but crash certified in sets of three or more

## DSC50 "S" BARRIER

*Peace of Mind Starts with Smart Design.*

Don't settle for clunky concrete blocks or plastic barriers that only look like protection. Our crowd protection solution combines design, deterrence, and defense—in one lightweight, high-impact form.

*Shield your people. Preserve your space.*

PORTABLE BOLLARD

**TB100**

***Protect What Matters – Instantly.***

**Introducing the TB100 Crash-Rated Portable Bollard System**  
***Patent-Pending. Proven. Portable.***

In an age where public safety can't wait, the TB100 delivers immediate, high-security protection wherever you need it most. Designed to block unauthorized vehicle access and safeguard crowded venues from vehicle-based threats, this crash-rated portable bollard system gives security professionals the power to respond fast — with confidence.

- **Crash-Tested Strength** – Stops vehicles in their tracks, even in high-risk pedestrian zones
- **Omni-Directional Protection** – Absorbs and arrests impact from any angle
- **Versatile & Portable** – Ideal for narrow walkways, roadways, or as a temporary fix until permanent bollards are in place

**Temporary Venue? Permanent Peace of Mind.**  
**With the TB100, you're not just placing barriers — you're creating safe spaces. Anytime. Anywhere.**  
***Be ready. Stay secure. Choose TB100.***

**AVAILABLE WITH FULL  
TRANSPORTATION KIT!**
