

# Video Security

**ZELARIS\_AC S**  
 Surveillance Software for Network  
 Cameras from Eneo, Axis  
**Art-No. 76011**

## Features

**Automatic Entrance and Barrier Surveillance**  
 For Network Components from eneo and Axis  
 Notification by Alarm Contacts or Motion Alarming  
 Pure Software Solution

**Automatic PC Processing and Recording**  
**Bi-directional Audiotransmission**  
 Available Protocols: TCP/IP, FTP and SMTP

## Specifications

|                           |   |
|---------------------------|---|
| <b>Operating System</b>   | Windows 2k with SP.4 or Windows XP Home or Prof. SP.2 |
| <b>Hard disk capacity</b> | i.e. 40 Gbyte   |
| <b>On-screen display</b>  | VGA card for display all live pictures                |
| <b>Interface</b>          | Fast Ethernet 10/100MBit, RJ45                        |
| <b>Storage capacity</b>   | internal memory for system min. 512MB                 |
| <b>Processor</b>          | Pentium III, 1.8GHz                                   |

## Accessories

|                                |                                      |
|--------------------------------|--------------------------------------|
| <b>76023 / ZELARIS_AC SMO</b>  | Site Map Option for Zelaris_AC S     |
| <b>76027 / ZELARIS_AC VIEW</b> | Alarm Playback Option for Zelaris_AC |
| <b>76024 / ZELARIS_AC PDA</b>  | PDA Client Option for Zelaris_AC S   |

## Accessories of

|                          |   |
|--------------------------|---|
| <b>91423 / ENC-501L</b>  | 1/3" Network Colour Camera w. CS Mount, integr. Web Server, 5VDC/230VAC, 340TVL |
| <b>91438 / ENC-501W</b>  | 1/3" WLAN Colour Camera with Antenna CS-Mount, 6mm Lens, 5VDC/230VAC, 340TVL    |
| <b>91434 / AXIS 241Q</b> | Video Network Server with 4 Inputs 768x576 Pixels, 7-20VDC                      |

(Accessories of continued)

**91433 / AXIS 241S**Video Network Server, with 1 input 768x576 Pixel,  
7-20VDC**91461 / ENC-1003L**1/3" Network Colour Camera w. CS Mount, integr. Web  
Server, 12VDC/230VAC, 480TVL**Product Information**

The combination of eneo network camera or Axis components and the Zelaris AC server software simulates a video door communication system.

The network cameras/servers use the Ethernet to transmit video, audio and control data via the network. Combined with the Zelaris AC server you can keep the entrance of a building or similar under surveillance from your PC work place.

By ringing the bell, which is connected to the alarm-contact, a picture pops up on the PC screen. An integrated microphone within the connected components, can be activated by pressing a virtual audio button integrated in the software. A door opener for example can be activated by pressing the function key of the alarm-out contact.
