Digital Access Keypads

SECO-LARM's new access control keypads come with three LEDs, as well as illuminated keys.

SK-1011-SQ — *1 output, 100 users*
SK-1131-SQ — *3 outputs, 120 users*

Features:

▶ Ideal for access and security applications.
▶ Code lockout or duress output after multiple unsuccessful attempts to key in the code.
▶ Stainless-steel face, durable and attractive.
▶ Built-in buzzer for audible confirmation.
▶ 3 outputs: (SK-1131-SQ only)
    Main relay (form "C", 5A@28VDC).
    Aux. relay (form "C", 1A@28VDC).
    Transistor ground output (100mA@24VDC).
▶ 1 output: (SK-1011-SQ only)
    Form "C" relay output (5A@28VDC).
▶ Two modes:
    Single-user — One 4-digit code shared by all users. 10,000 possible codes.
    Multi-user — Up to 120 user codes.
▶ Backlit keyboard — (SK-1131-SQ only).
▶ Output relay activation buzzer.
▶ Relay output inhibit control (programmable)
    — Locks the relay output to prevent user access.
▶ Auto or manual code entry checking.
▶ Egress input — Lets users exit the protected premises without keying in the code.
▶ Built-in tamper (N.C.) circuit.
▶ EEPROM memory — Prevents data loss.
▶ Power — 12/24 VDC or VAC, no need to change jumpers.

Additional Features for SK-1131-SQ:

▶ Backlit keyboard: For easy daytime and nighttime use.
▶ Mantrap — For a protected area with two doors, each with its own keypad. This ensures only one door is open at a time.
▶ Door forced open warning.
▶ Door propped open warning.
▶ Alarm output — When used with an optional magnetic contact.
▶ Keypad active output — Activates for 10 seconds when any key on the keypad is pressed.
▶ Door auto relock.

SK-1011-SQ

SK-1131-SQ

Technical Specifications:

	SK-1011-SQ	SK-1131-SQ
Door unlocked announcer	Yes	Yes
Request-to-exit input	Yes	Yes
Main relay lockout	Yes	Yes
Tamper switch	Yes	Yes
Silent operation	Yes	Yes
Operating voltage	12-24V AC/DC	12-24V AC/DC
Number of outputs	1	3
Number of users	100	120
Backlit keypad	No	Yes
Mantrap	No	Yes
Door-forced-open warning	No	Yes
Door-propped-open warning	No	Yes
Key activation output	No	Yes
Door auto relock	No	Yes
Alarm output	No	Yes
Duress output	No	Yes
LED connections	Fixed internal	Ext. connection*

* LED's can be wired to show status of external devices such as an alarm control panel.
