

exacqVision[®] professional

Intuitive Video Management System (VMS) Software

Powerful, Easy-to-Use VMS for Enterprise Video Surveillance

Key Features & Benefits:

- **Easy Connection to Cameras** — Cost-effective solution allows you to connect up to 64 IP cameras and add additional IP camera licenses easily at any time
- **Powerful Mapping Feature** — Add any number of maps and drag and drop cameras and alarms onto the maps.
- **Intuitive User Interface** — The easy-to-use client user interface requires little to no training and includes powerful video, audio and POS export features, thumbnail search, multi-monitor client display, video wall and more
- **Cross-Platform, Scalable Solution** — Server software runs on Windows or Linux. Freely distributed client software operates on Windows, Linux or Mac. Scalable with all other exacqVision systems. Easily upgrade to exacqVision Enterprise as your needs grow.
- **1 or 3-year Software Subscription Agreement (SSA)** — Receive quarterly software upgrades for all the latest advancements of new features and improved performance as they are released. IP camera licenses never expire.

Additional Features Included in exacqVision Pro and Enterprise VMS:

- **3rd Party IP Camera & Access Control System Integration**
- **Audit Trail Functionality**
- **SmartSearch**
- **Event Monitoring**
- **exacqReplay**
- **Digital PTZ Functionality**
- **Included Mobile App**
