570 TVL Internal/External H.264 TDN PTZ IP Dome Camera

GANZ IP's range of Internal and Internal/External IP PTZ Dome cameras are based on class leading H.264 compression engine, which provides crystal clear full frame rate video of D1 resolution at significantly low bit-rates.

The ZNPTZ500VPE is an entry level 100x zoom (10x Opt, 10x Digital) true day/night camera based on the SONY 1/4" Super HAD CCD sensor with dual encoding and streaming functionality, where two independent streams can be derived with different compression algorithms, bitrates, frame rates and resolutions. The units support H.264, MPEG4 and MJPEG compression as standard. With a 360Deg continuous rotation head and 128 presets this unit offers exceptional value for money.

The range boasts of mechanical IR cut filters for superior night time operation, onboard basic Video Content Analysis, Bi-directional audio, onboard micro-SD, and digital input/output as standard. Advanced Video Content Analysis filters are available for this unit as an order option. The built-in Power-over-Ethernet support allows the camera to be powered directly from the network, with just a single CAT5/6 cable, reducing installation/maintenance time and costs.
