

# EASY UPGRADE INTERNAL HDD KITS FROM SAMSUNG TECHWIN

Samsung Techwin has introduced easy upgrade internal HDD kits for its SVR range of digital video recorders, SNR range of network video recorders and SVS range of external storage devices.

Available as 500GB or 1TB units, the kits come complete with everything needed to upgrade, either on site or in the workshop, including detailed instructions.

Each hard drive is supplied with a three-year warranty and will not invalidate the warranty of the SVR digital video recorder, SNR network video recorder or SNS external storage device if installed in accordance with the instructions.
