## 8 Zone Control Panel

# Securit 800L

## 8 Zone Control Panel

Versatile Installation  
User-Friendly Design  
Easy to Operate Remote Keypad

## SPECIFICATIONS

<b>Eight Zones Alarm:</b>	6 Programmable for: Alarm, Entry/Exit, Access (walk through), Personal Attack, Part Set Entry, Part Set Isolation. 1 Programmable for: Entry, Alarm, Fire, Keyswitch. 1 Fixed: Entry/Exit.
<b>Home Set Facility:</b>	Gives flexibility by automatically isolating pre-programmed zones, allowing the system to be armed while the User remains inside.
<b>Manual Isolation:</b>	The system can be tailored for any situation that arises by isolating individual zones which have not been programmed for Home or Part Set Isolation.
<b>Remote P.A. option:</b>	The Remote keypads can be programmed to give a Personal Attack Feature, using the * and # Keys.
<b>Extension Speaker Output:</b>	For greater enhanced sounds, up to two 16 Ohm extension speakers can be fitted.
<b>Chime Function:</b>	Enabling this feature allows Monitoring of chosen zones while the panel is disarmed.
<b>Two User Codes:</b>	Main User code plus second code for children or cleaner etc.

### Securit 800L CONTROL PANEL

<b>Dimensions:</b>	261mm x 266mm x 88mm (h x w x d)
<b>Material:</b>	White, epoxy powder coated, 18 swg shell
<b>Weight:</b>	3.10 Kg
<b>Mains Supply Voltage:</b>	230 V AC Nominal
<b>PSU Output Voltage:</b>	13.6 V Nominal
<b>Maximum Output Current:</b>	1 A (total)
<b>Event Memory:</b>	Allows checking of past events
<b>Panel Quiescent:</b>	40 mA.
<b>Normal Operating Temperature:</b>	0°C to 40°C
<b>Humidity:</b>	10 to 90% R.H. non-condensing

### KEYPAD

<b>Dimensions:</b>	70mm x 120mm x 25mm (h x w x d)
<b>Weight:</b>	0.13 Kg
<b>Supply Voltage:</b>	12V
<b>Quiescent Current:</b>	20 mA.
<b>Active:</b>	45 mA.
<b>Maximum Number Allowed:</b>	Six
<b>Approvals:</b>	CE Designed to comply with BS4737 Part I
<b>Order Part Number:</b>	ST800L-UI
