IQeye PRO LINE

IQeye Alliance™ Series

PRODUCTS

IQeye Alliance Series

The IQeye Alliance Series is a fully-integrated vandal-resistant megapixel dome camera line. With easy installation and a variety of models to choose from, the IQeye Alliance is ideal for many applications.

IQeye Alliance H.264 Series

This IQeye Alliance model utilizes H.264 compression method to efficiently lower file sizes while still delivering high-quality images at megapixel resolutions. Also supports audio synchronization and works well in challenging conditions.

IQeye Alliance Wall Mount

The IQeye Alliance Wall Mount enables simple installation of an IQeye Alliance Dome Camera system on a wall surface, allowing the Alliance Dome apex to be oriented toward the ground. Works with both interior and exterior dome models.

IQeye Alliance Back Box

This environmentally sealable rugged Back Box enables the IQeye Alliance cameras to withstand temperatures down to -20° C (-22° F) to 50° C (122° F), offering the perfect solution for harsh conditions. The IQeye Alliance Back Box also features a pendant mount option.

Enjoy high-quality images with the full-integrated, vandal-resistant megapixel dome camera line, the IQeye Alliance. Its features include high-resolution images from VGA to 5.0 megapixels, full PoE capability and a 3-axis gimbal. The IQeye Alliance's solid aluminum construction and impact-resistant polycarbonate bubble make it tough enough for any environment and its low-profile design gives it the perfect balance between discreet and deterrent.

- 2.0 Megapixels @ 15 fps
- 3.1 Megapixels @ 12 fps
- 5.0 Megapixels @ 10 fps
- LIGHTGRABBER™ II Low-light Feature
- IEEE 802.3af - Power-over-Ethernet, or 12-24 VDC
- Low 2.5 watts Power Consumption
- Digital Image Cropping
- Include/Exclude Exposure Window, Privacy Zones

Easy Installation Design

Like all IQinVision products, the IQeye Alliance Dome Camera system is an innovative surveillance camera that is designed to save time and money on installation and maintenance. A key highlight is the industry-first, pivoting hinged shroud that automatically stays aligned with the camera position, yet easily swings away to make the camera positioning a breeze.

On-Camera Recording

The IQeye Alliance Series features a built-in slot for an SDHC memory card enabling direct, on-camera recording. Perfect for a back-up solution to any system or for smaller applications. And, with IQrecorder™ embedded directly in the camera, you'll be able to utilize many sophisticated features including pre-event/post-event recording, time-date search and AVI export functionality.

IQrecorder

Available with every IQeye PRO LINE camera, IQrecorder enables you to record and playback crisp, clear IQeye Resolution™ images using affordable network storage with no client software. User-friendly features include simultaneous playback and live viewing, day-by-day scheduling, a brand new playback interface with DVD-like controls.
