

Keyscan's Visitor Management has distinct advantages when it comes to registering and monitoring visitors.

- Shows all visits scheduled for the current date
- Schedules visits in advance and tracks visit status - expected, delayed, arrived, and departed
- Retains a complete history of all visits
- Has a wide array of report capabilities including all visitors currently on site
- Interfaces with Keyscan's business card scanner (P/N BIZSCAN) for quickly adding new visitor records
- Includes Keyscan's Photo Badge Template Editor for designing visitor badge templates and parking permits
- Formatted for printing visitor ID badges on self-adhesive labels such as Avery # 5147\* - 2 11/32" x 3 3/8" - 2 per sheet format
- Assigns visitor access cards for independent but regulated and monitored access at reader-controlled doors
- Maintains individual visitor files with user-defined fields for basic or detailed records
- Populates contact information directly from MS Outlook
