

## NID325

### 3-Megapixel Indoor Dome Camera

1/3" Lumii sensor, H.264, triple streaming, WDR, 3DNR, ICR day/night, SDXC/SDHC card slot

The NID325 is a professional 3-megapixel IP dome camera designed for detail-demanding indoor surveillance, delivering high quality live view and recorded footage with superior high definition video up to 30fps. A true day/night camera, the NID325 features improved sensitivity backed by proprietary low light technology and 3DNR to provide unprecedented image clarity under the cover of darkness. The NID325 also features easy, flexible installation with 3-axis lens adjustment, as well as enhanced WDR and local storage to make it a versatile solution for diverse indoor surveillance applications.

ONVIF

#### True Day/Night with Mechanical ICR

Featuring IR Cut Filter Removable (ICR) function, the camera is perfect for capturing truer color images at day time by filtering out IR. At night, IR is allowed for the camera working in B/W mode and being more sensitive to IR, thereby capturing clearer monochrome images.

#### Ultra Wide Dynamic Range

Compared with standard WDR, the new-generation WDR features sophisticated algorithm to further expand its dynamic range of the lighting conditions. It allows the camera capturing greater scene details in high contrast settings or in scenes with extremely bright and dark areas.

#### 3D Noise Reduction

The 3DNR technology takes traditional DNR a step further, removing digital artifacts and grainy appearance from frame to frame, while maintaining image sharpness at low light settings, which results in more efficient bandwidth utilization and less storage space consumption.

#### Easy Installation with 3-axis Adjustment

An ideal feature for wide-area surveillance, the 3-axis angle adjustment makes camera installation easy, allowing installers to adjust the camera's direction and to level the image with ease whether it's mounted on walls or on ceilings.
