

The Milestone Husky™ Series

Video surveillance your way

The innovative Milestone Husky™ Series of network video recorders (NVRs) delivers fully-integrated, customizable video surveillance solutions. This state-of-the-art series of NVRs can be tailored to meet the demands of any surveillance installation, from a small family-owned business to a complex surveillance installation with multiple sites and hundreds of cameras.

The open platform company

The perfect match

Now with new features* and more storage for extended video retention and recording!

Milestone Husky Series

Combining its award-winning video management software with high-performance hardware, Milestone Systems offers the Milestone Husky™ series, available in three models. Use one as a simple stand alone or connect multiple models and choose from more than 50 options for a truly customizable and scalable solution.

Milestone Husky™ M10

Small, sleek and configured for efficient performance and reliability. Ideal for entry-level video surveillance.

Milestone Husky™ M30

Designed for workstation installations with comprehensive surveillance needs. Customize to fit your budget and scale up as your business grows.

Milestone Husky™ M50

Our premier, rack-mounted solution with greater channels and storage. The Milestone Husky M50 is feature rich and customizable with unlimited options, making it perfect for advanced installations with sophisticated surveillance needs.

* New features for Milestone M10 only - 4-channel option, Video Push, and user interface improvements

Why Milestone Husky?

Optimal performance

- ▶ Pre-installed with Milestone's video management software (VMS) – proven in thousands of installations worldwide
- ▶ Seamless integration of VMS and high-performance hardware
- ▶ Designed, built and tested for reliability and durability

Customization and scalability

- ▶ Connect Milestone Husky models for cost effectiveness and unlimited scalability to meet growing surveillance needs
- ▶ Use Milestone Interconnect™ to connect Milestone Husky models at remote sites to XProtect® Corporate for centralized management
- ▶ Connect multiple Milestone Husky M30s or Milestone Husky M50s with a master/slave configuration and view video from all connected cameras by simply connecting to the master server
- ▶ Mix camera brands and models according to your needs: compatible with the largest selection of cameras in the industry (supports ONVIF™ and PSIA compliant devices)
- ▶ Integrate XProtect® add-ons and third-party integrations – such as access control and video analytics – with Milestone Husky M30 and Milestone Husky M50 models
- ▶ Choose the number of cameras needed for a customized solution – use add-on licensing with Milestone Husky base configurations

Simplicity

- ▶ Software preinstalled and automatically activated in hardware
- ▶ Easy set-up in minutes – configuration wizards, automatic license activation and automatic device (i.e. cameras) discovery
- ▶ Easy to customize online – use the Milestone Husky Configurator on www.milestonehusky.com to configure your systems with just a few clicks
- ▶ Easy to identify the best configurations with the Milestone Husky Calculator - download at: <http://husky.milestonesys.com/MHC/setup.exe>
