

# Detectors - Dual Technology C100STLRE11/C100STLRE15

## Adaptive Slimline Sensors

- C-100STLRE11 - 11 x 9 Metre Range
- C-100STLRE15 - 15 x 12 Metre Range
- Proven Adaptive Technology
- Active Self-Test Supervision of Both Microwave & PIR Channels
- Wide Array of Interchangeable Lenses
- Secured Cover
- Tamper-Supervised
- UL & ULC Listed

Other models include: C100STE52, C100STLRE52 [European]

These exclusive Adaptive Sensors make all other motion sensors, dual technology or otherwise, obsolete. Once they're installed, they're like having a technician on-site, making all adjustments for you 24-hrs a day. Despite other, confusing claims, these patented microwave/PIR sensors are the only ones on the market that actively & continuously monitor their environment, counteracting false alarms and re-sensitizing themselves to continually optimize catch performance. Ideal in all installations, despite harsh environmental conditions, they provide the best protection available from both intruders and false alarms, plus they pay for themselves with the first service call they prevent.
