

# C200AP

Adaptive® Dual Technology

## False Alarm Reduction Features:

- P.E.T. (Positive Electro-imaging Tracing) processing provides revolutionary pet immunity by algorithmically distinguishing animals from intruders!
- Patented Active Adaptive technology for continuously optimised catch & stability: Auto-correcting minute-by-minute for application & false alarm factors. With P.E.T., the sensor recognises a pet's presence or absence in a protected area and self-adjusts appropriately.
- "SMARTER SYSTEM™" Panel & Sensor Integration Input: Rock solid, automatically co-ordinates sensor sensitivity with panel status (armed, disarmed, arming in process, etc.)
- Superior RFI/EMI protection with wrap-around shielded SMD circuitry
- "Twin-tee" fluorescent light interference filter

## Installation Ease Features:

- 40 x 40' Maximum Range Broad Coverage
- Self-Test Indicator
- 2 Field-Changeable Lenses Supplied (Long Range & Vari-Pet)
- Range Control & Auto-Temp Compensation
- Tamper Supervised
- UL and CE compliant
