## 2x6 Illuminated prox cat. 39201450

One of a kind, the only 2x6 EVERSWITCH Piezo keypad combine with HID proximity reader available on the market.

Mounted on a door mullion, measuring at 2" wide, the indestructible solid state proximity reader offers the ultimate in strength and durability where proximity (125 KHz) is required.

With solid one-piece brushed aluminum sealed casing, the reader is designed to function dependably even in harsh climates or high risk, high traffic environments.

### **The EVERSWITCH 2x6 with HID proximity is:**

Vandal proof

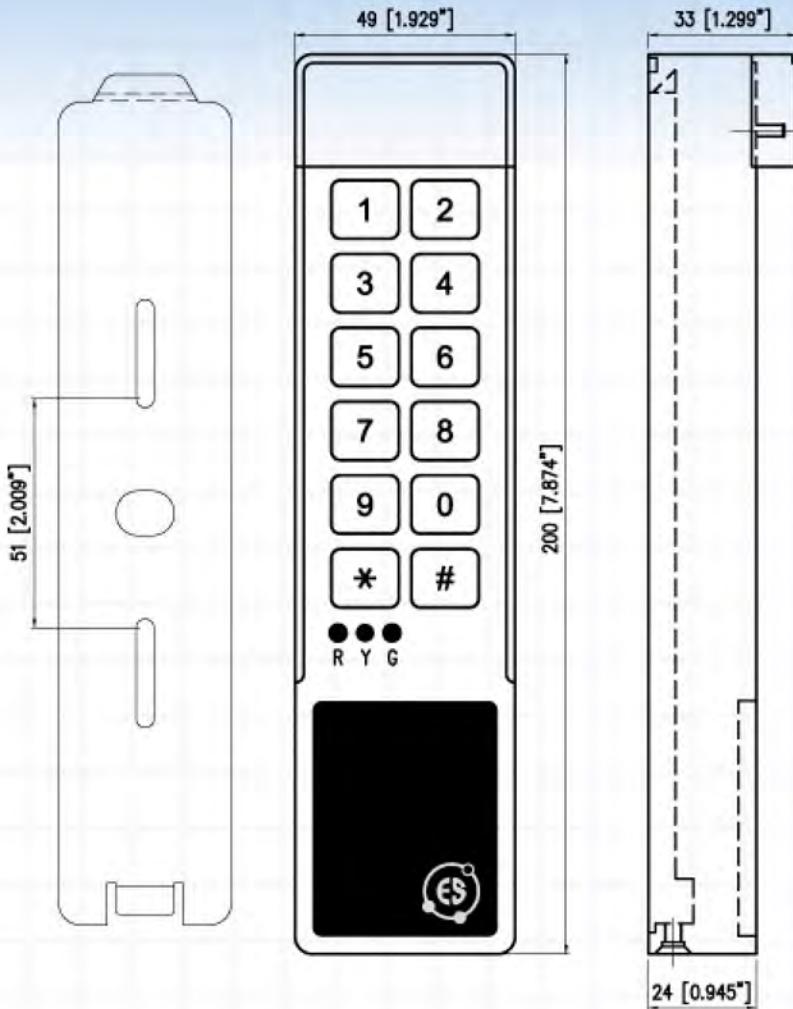

Tamper proof

Weather proof (-40oC to +125oC)

Water and dust proof (IP68, 100% humidity)

A modular illumination unit can be added onto the unit with ease.

## Specifications

**Model: EVERSITCH/HID 2x6**

**Material: Brushed aluminum**

**Power supply: 10 – 28 VDC**

**Power consumption: Max 150mA**

**Communication: Wiegand 26**

**Transmitter/Receiver frequency:  
125 KHz HID card/tag reader**

**Dimensions: 44 mmx186 mm**

**Operating temperature keypad:  
-40°C to +125°C**

**Operating temperature reader:  
-30°C to +65°C (22°F to 150°F)**

**Environment IP68, 100% relative  
humidity (Non-condensing)**

## Guaranty

Product guaranteed against defects and workmanship for 5 years (See guaranty policy for details).

Third party system such as prox, smart card, card reader system warranted back to back as per the manufacturer warranty.
