ONE PRODUCT... ONE DOME/PTZ

Redvision™

RVX28-IR RVX28-IR-W(wiper)

All X-SERIES cameras can be configured as either conventional Domes or Ball type Pan & Tilts. Cameras are supplied as Domes, but can easily be transformed to Pan & Tilts by removing the Dome Top Cover.

In-built IR provides up to 100 metres illumination at Zero Lux. Wiper options available.

Dome Configuration.

X-series domes all have flat toughened glass windows providing superior optics compared to plastic Domes. Unlike conventional Domes the X-series Cameras can see above the horizon without the video picture being clipped by the Dome top.

Ball PTZ Configuration.

X-Series Ball PTZ can be inverted and tower mounted. This mounting option provides full 360 vision.
