

2.5-in SSD DATA SHEET

Built for Fast Data Centre Applications

Nytro 2050 SAS SSD Series

The Seagate Nytro 2050 SAS SSD is the superior SATA alternative, delivering up to 7 TB in 2.5-in x 15 mm form factor. Harness a 12 Gb/s interface with dual ports for speeds up to 1,050 MB/s, choose from three endurance options including up to 3 DWPD, and rely on drive monitoring and government-grade encryption. It's all here — fast, consistent, scalable, and secure performance for the most demanding enterprise workloads.

Best-Fit Applications

- Single-port, high-capacity storage systems
- SATA-compatible systems

Key Advantages

12 Gb/s SAS interface and a single port for 24x7 performance

High-density capacities of up to 7 TB in a 2.5-in x 15 mm form factor

Low latency and high QoS for better responsiveness and user experience

Easily manage and monitor SSD health with SeaChest

Three endurance options to meet workload, deployment and TCO demands

Ensures reliable data protection for mission-critical applications

Seagate Secure™ with Secure Download and Diagnostics (SD&D), SED, and SED FIPS 140-2 options for advanced data security¹

Built for easy integration with Linux and Microsoft OS

¹ Self-encrypting drives (SED) are not available in all models or countries. May require TCG-compliant host or controller support.

Specifications	Nytro 2350 — Scaled Endurance			
Capacity	7.68TB	3.84TB	1.92TB	960GB
Standard Model	XS7680SE70135	XS3840SE70085	XS1920SE70085	XS960SE70085
