## HOUSING BRACKETS - MOUNTING BRACKETS FOR STATIC HOUSINGS / CAMERAS

**Shawley** are proud of the quality and standard of engineering which we achieve across the board. Our range of support brackets illustrates the same quality and attention to detail that we apply to all our products. The choice of materials and finish is made to suit the application for which the bracket was designed. More demanding locations or heavy duty use require a stronger and more durable bracket. No matter what the application, the **Shawley** range has the answer.

BRACKET TYPE	COMMENT	RECOMMENDED USE	DIMENSIONS
WB7065 WB7023	Universal indoor camera brackets can be oriented to virtually any position. WB7023 is telescopic to facilitate extra length where required.	Direct to camera	
WD4U	Outdoor bracket with pan & tilt swivel. Die cast aluminium with black powder coat finish.	CH13 & CH14 housings	
WB14	Small, rigid outdoor bracket with pan & tilt swivel. Die cast aluminium with stainless steel swivel assembly. Black powder coat finish.	CH15 & CH16 housings CH12 & CH11 housings	
WB15	Heavy duty version of WB14		
SM1	Swivel mount made from die cast aluminium and 16 gauge stainless steel. SM1 uses the swivel assembly from the WD4U bracket fitted to a small steel carrier. 4" PCD mountings facilitate use with all Shawley pan & tilt brackets and column spacers.	CH13, CH14, CH15 & CH16 housings	
SM2	Heavy duty swivel mount in die cast aluminium for use with heavy duty housings. 4" PCD mountings facilitate use with all <b>Shawley</b> pan & tilt brackets and column spacers. <b>Also provides a very stable mount for laser transmission systems.</b>	CH8, CH12 housings
