

The VA-3 Digital Badging Camera is compatible with Software House's C•CURE ID photo identification software package. Connect the hardware, run the autoseup program and you are ready to go. Full control of zoom and brightness is immediately available from the user interface via mouse or keyboard.

The VA-3 makes it easy to take perfect image captures in any environment, even in very dark rooms! Simply hit the capture button and the camera will auto adjust, the auto light will go on, and a high-resolution image with perfect skin tones will be obtained. All light hardware, mounting brackets and control cables are included.

KEY FEATURES

- Full Optical Zoom control from the mouse or keyboard
- Powerful high intensity flash for perfect captures from 18 inches to 14 feet
- Flash directly integrated with camera
- Crystal clear, sharp, low noise image quality for the very best image captures
- Integrated USB 1.1 or 2.0 interface
- Auto-Focus, 18 to 1 optical zoom (72 to 1 digital) under software control
- Full screen live display at 640 x 480 at 30 frames a second
- Perfect captures anytime, anywhere even in completely dark rooms
- Custom cropping option allows preview of captured image as it will appear on your ID card. Eliminates need for software cropping
- Specific controls for fine-tuning flesh tones to achieve perfect image replication
- Fast image transfer to the C•CURE ID badging application
