

audio engravable panels

- Choice of stainless steel (BS316) or polished brass panels from 1 to 60 buttons (as standard) with a wide range of options.
- Proximity reader or keypad available for any panel (mostly from stock)
- 4400 series door entry panels have hinged front plate. This allows an engineer to connect the panel without having the heavy plate hanging on wires.
- Built in speaker unit has volume controls in both directions. The speaker has a mylar cone and the unit is conformally coated to resist damp conditions
- The front plate is secured to the back box with 4 x SRS stainless steel tamper resistant screws.
- Hinged front plate for easier installation
- All stainless steel construction (even the back box) means it will last.

**Engraving**

1 button panels do not normally need engraving but multi button versions will need engraving to your requirements. You may have house name or company name engraved on the panel if required.

**Panel Dimensions**

	Panel HW		Back Box HWD		
A size	250	136	230	116	50 #
D size	321	181	301	161	50
D1 size	349	181	329	161	50
D2 size	377	181	357	161	50
D3 size	405	181	385	161	50
D4 size	405	273	385	253	50

# 1 - 3 way are 35mm deep

**Hoods and Frames**

	Type	Fitting	Finish	Fits Size	H	W	D
3505/00	hood	flush	stainless	A	122	140	40
3505/50	hood	surf.	stainless	A	253	140	68
3505/35W	frame	surf.	hardwood	A	256	142	50
3505/50W	frame	surf.	hardwood	A	256	142	50
3506/00	hood	flush	stainless	D - D3	122	185	40
3506/50	hood	surf.	stainless	D	325	185	68
3506/50W	frame	surf.	hardwood	D	327	188	50
