

# Proximity Readers

**exprox<sup>2</sup>** is a range of **high-performance** contactless proximity readers from TDSi. Available with or without a backlit tactile keypad, **exprox<sup>2</sup>** is designed to be mounted in a standard electrical back-box making for a **neat** and **simple** installation. All products are supplied with a choice of covers allowing the look of the reader to be changed to suit its surroundings.

## Overview of the **exprox<sup>2</sup>** reader

### Features

- Mounting into a standard electrical back-box
- Tough plastic clip-on covers in both graphite and light grey
- Supports the 2 Reader Mode of **microgarde** access control units
- Available with a blue backlit keypad
- Pluggable terminal block cable termination
- Fully encapsulated design
- Integral LEDs and sounder
- Industry standard outputs
- Read range of 150 mm (nominal)

### Benefits

- Neat installation into a standard fitting
- Adapt the look of the reader to suit the surroundings
- Use **microgarde** to control 2 doors both with read-in/read-out. Saves on hardware, installation time and cost.
- Increase security by adding a PIN to your card-based access control
- Allows the cable to be pre-wired prior to installation of the reader for convenience
- Provides maximum protection against water ingress making it suitable for mounting both indoor and out
- Gives the user unambiguous audible and visual indication of card reads and access status. Maximises user confidence
- Allows connection to all standard access control panels
- Easy to use
