

Microlock® Prox 200 Technical Data

The Microlock® Prox 200 has the ability to store up to 200 proximity cards or 4-digit PINs in its memory, providing stand-alone access control to a single door.

Microlock® Prox 200 offers low-cost, entry-level access control without the fundamental problems inherent in keypad-only solutions.

System Upgrade

Microlock® Prox 200 offers an upgrade path for future system expansion by providing a data output to TDSi's range of networkable access control units. This allows Microlock® Prox 200 to function within a larger system as a simple proximity reader and keypad as the requirements of your access control system grow.

Feature		Technical Data	
Reading technology	Proximity	Part No.	5002-1280
Maximum user capacity	200	Dimensions in mm	120 x 100 x 30
Door configuration	1 door/1 reader,1 keypad	Operating temperature	-10°C to +50°C
Card-only access	Yes	Humidity	Waterproof
PIN-only access	Yes	Relay contacts	2A 30V DC changeover
Card + PIN access	Yes	Power supply	12 V DC / 200mA max
No. of cards included	10	Interface	ISO track 2 magnetic stripe compatible (10 digits)
Anti-tamper facility	Yes		
Data output for future upgrade	Yes
