

1/3" varifocal lenses with high quality glass optics

CLVM
CLVD

- Auto-iris lenses supplied with pre-fitted plug
- High reliability galvanometric auto-iris mechanisms
- F360 neutral density filter on auto-iris models make them ideal for indoor & outdoor applications
- Screw-lock focal length & focus adjustment
- Quality metal body & mounting thread

Provide the right view in a variety of security surveillance situations with these professional, metal bodied varifocal lenses that are easy to adjust. Focal-length and focus adjustments have screw-locks to ensure views remain as initially set.

- **CLVM series - manual iris lenses**

Cost effective CS-mount lens solutions for use in situations with stable illumination levels. Also ideal for use with modern 1/3" CCD cameras featuring automatic electronic shuttering (AES).

- **CLVD series - auto-iris lenses**

CS-mount direct drive (DC-type) auto-iris lenses suitable for use with modern cameras featuring internal auto-iris drive circuits. Particularly suitable for use with cameras surveying outdoor scenes or in situations where widely varying illumination levels are likely to occur.

All auto-iris lenses are supplied with the iris plug pre-fitted for easy installation.

- **Aspherical Lenses**

The 2.5 ~ 10mm and the 5 ~ 50 mm models in both manual and auto-iris versions feature aspherical lenses; offering a compact size and improved low-light performance.
