

IB981

Access Control

Passive Cotag keyring tag

The **IB981** is a factory-encoded passive tag that does not include a battery. It can be used in combination with any Cotag reader. When it is used with a Cotag hands-free reader, the reading range is approximately 29 cm. With Cotag proximity readers, the reading range with the IB981 varies between 2 and 9 cm.

One of the major advantages of Cotag technology is that active and passive cards can be mixed in the same system to provide ultimate convenience and cost-efficiency.

Note: The card number is printed on the back of the IB981 card.

Quantity in order: 10

Technical Data

IB981	
Dimensions (W x H x D)	40 x 49 x 4.5 mm
Weight	8 g
