

SPCN110

PSTN Module

PSTN communication module

- **Communication to PSTN telephone network**
- **System monitoring & configuration**
- **Pluggable to SPC controller board**

Remote communication: The communication module enables the control panel to communicate with PSTN networks.

Configuration and monitoring: The PSTN module supports multi-event alarm transmission to SIA/Contact ID standard receivers and the remote configuration and maintenance (from/to SPC Pro/SPC RM) of the control panel.

Easy mounting and configuration: The modem plugs directly on the SPC controller main board removing the need for any additional wiring. All the module functions are configurable via the control panel.

Technical data

SPCN110

Functional Data	
Network connections	PSTN (analogue telephone network)
Power Data	
Operating current	Max.35 mA at 12 V DC (communication active)
Quiescent current	Max. 25 mA at 12 V DC
Mechanical Data	
Mounting	Plug on module to SPC controller
Operating temperature	-10° ~ +50 °C
Dimensions	90 x 38 x 25 (PCB)
Weight	0.030 kg

Ordering data
