

Overview

Verkada's suite of wired and wireless intrusion sensors provide complete building protection for any site. Our wired sensors can be connected to the BP52 Panel, BE32 Expander, or BP41 Panel, while our wireless sensors will automatically connect to the nearest VLink hub. VLink is Verkada's proprietary wireless protocol that optimizes for security, range, and sensor battery life.

Key features

Full protection and visibility

- Full suite of sensors including door, motion, and water leak, as well as panic buttons
- Pair any sensor with a camera for video verification

Easy setup and management

- Wireless sensors automatically connect to the nearest VLink hub - no manual pairing process needed
- Cloud-managed from Command for easy configuration and monitoring

Built to last

- 10-year warranty on all sensors
- Up to 10 years of battery life for wireless door sensors and up to 5 years for other wireless sensors¹
- User-serviceable batteries

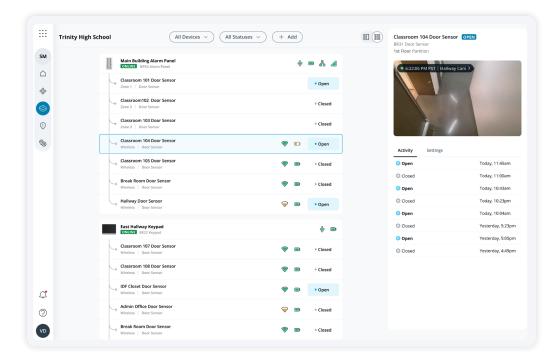

1. Real-world battery life depends on a variety factors

www.verkada.com 0925 sales@verkada.com

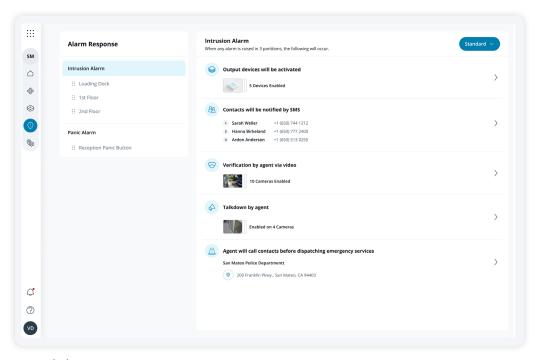

Cloud-managed

Verkada's cloud-based management platform, Command, brings visibility and control at scale for many alarm systems across multiple sites. Users can remotely view live/historical activity for any sensor at any site, and see the connection quality and battery level for wireless sensors.

Partition-based alarms

Set distinct schedules and response flows for different sensor partitions, which are software-configurable. For example, a retail store could arm intrusion sensors at night and have the monitoring agent call security before dispatching police. On the other hand, the panic button at the cash register could be armed 24/7 and result in immediate police dispatch when pressed.

BR31 Wireless Door Sensor

Tech Specs

BR31

Power and network

Power Supply	2 x CR123A lithium batteries	Wireless Communication	VLink (proprietary 868-928 MHz)
Battery Life	Up to 10 years Real-world battery life depends on a variety factors	Compatibility	Compatible with any VLink hub Backwards compatible with BC82, BK21, and BH61

Sensor features

	Open field with line of sight: 300 ft / 90 m		
Wireless Range	Expect reduced range indoors, depending	Door Gap Width	Adjustable up to 2" (5 cm)
	on environment		

General

Dimensions	Sensor Height: 5.5" (14.0 cm) Width: 1.1" (2.7 cm) Depth: 1.0" (2.5 cm)	Operating Temperature and Humidity	32 to 113° F (0 to 45° C) 0-90% RH non-condensing	
	Magnet Height: 2.8" (7.0 cm) Width: 0.6" (1.6 cm)		Indoor use only	
Weight	Sensor 3 oz (85 g)	LED Indicator	-	
	Magnet 0.9 oz (25 g)		Test mode and low battery	
Certifications	FCC, IC, CE, UKCA, RCM, IFETEL, UL/cUL/IEC 62368-1, FY2019 NDAA, EN 50131 (Grade 2)	Warranty	10 years	

Included Accessories	2x CR123A batteries, 4x wood screws, 4x sheet metal screws, T10 Security Torx L key, VHB adhesive mount	Mounting Options	Wood and metal screws; VHB adhesive mount
----------------------	---	------------------	--

BR32 Wireless Motion Sensor
