

High Performance Video Appliance for Demanding Applications

The VSS-5T video appliance scales with any video surveillance deployment and its demanding requirements. Its chassis combines a versatile design with outstanding storage scalability. Enable powerful graphics with NVIDIA® GeForce® RTX and Quadro® graphics cards, along with support for multi-GPU configurations for increased GPU computing potential.

Paired with the latest Intel® Core™ X-Series processors, these video appliances meet the needs of even the most demanding projects. Up to 256GB of DDR4 RAM provides system reliability and stability, while a 950W power supply guarantees you have the resources to scale to the requirements of any project.

Keep Your Hard Drive

With Video Storage Solutions' Keep Your Hard Drive warranty, your sensitive data and hard drive never leave your control. It also helps you comply with current data privacy regulations and internal company policies by ensuring sensitive information on your hard drive is not compromised, mitigating the risk of expensive civil litigation if confidential customer data or intellectual property were to be exposed.
