

# Advanced Personal Emergency Response and Lifestyle Management Solution

  
**Amber**  
Select

Growing numbers of seniors, people living alone and others with evolving health concerns are looking for solutions to help them manage their medication and safety and keep them in touch with emergency help. The goal: to maintain independent lives in their own homes and enable family members to continue their daily lives secure in the knowledge that their relatives are not alone.

Visonic's Amber®Select offers a uniquely complete answer by combining comprehensive lifestyle management and advanced safety management in a single, attractive solution.

It incorporates an advanced home safety and intrusion alarm and a full-featured activity support system - so that emergency response, family contacts and health care providers are no further than a button click away.

With a sleekly designed, easy to use console, wearable remote transmitters, and a wide range of detection accessories, AmberSelect goes everywhere in the home the user goes. It detects safety threats such as smoke, floods, carbon monoxide (CO) and intrusions and provides medication reminders and monitoring of inactivity and falls – providing the ideal lifestyle support solution for the high-end market

### Sleek design for modern lifestyles

- Ultra-modern, streamlined design fits any décor
- Large-size buttons ensure confident, easy use

### Personal safety and lifestyle support

- Programmable inactivity monitoring, enabling emergency contact notification if the user appears to have ceased regular daily activities
- Fall monitoring via wearable detector
- One emergency button and one button for outgoing calls
- Emergency call initiation and pick-up of incoming calls using wearable remote transmitters
- Built-in, two-way, high-volume speakerphone
  - High volume setting - ideal for hard-of-hearing people
  - High-sensitivity microphone - enables a frail voice to be heard, even from afar
- Up to 16 customizable voice and display reminders - for medicines, food, appointments, etc.

### Home safety and security monitoring

- Comprehensive environmental safety detection, including, smoke, flood and carbon monoxide (CO)
- Intrusion monitoring option

### Flexible, user-friendly system
