

**PARTNERSHIP  
AT EYE LEVEL!**

## LTV ROADSHOW 2015 - May 19th to June 3rd

Professional video surveillance and more:  
complete solutions for professional installation companies

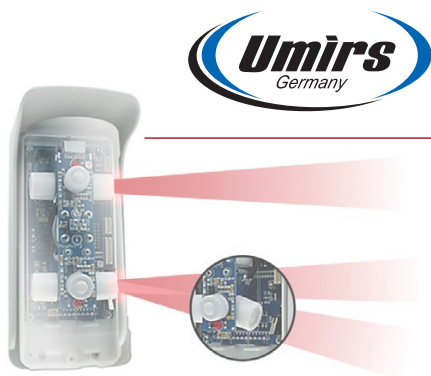

On the 2-week roadshow through Germany, LTV and 3 well-known partner companies are going to show you great new solutions on the topics of video surveillance, burglar alarm systems, fiber optic systems and digital business. Don't miss this unique opportunity to inform yourself about the specific benefits for your company and your projects!

### PARTICIPATING COMPANIES:

**LTV Europe Sicherheitstechnik GmbH**  
**Professional video surveillance systems for every requirement!**

LTV is a manufacturer of video surveillance products and systems. The product range covers IP, Analog/Analog+, HD-SDI, Full HD analog cameras, recorders, displays and accessories as well as the open platform video management software SOLIDUM®.

**Umirs Germany GmbH**  
**Professional intrusion and perimeter protection systems**

Umirs Germany, manufacturer of professional perimeter/outdoor intrusion detection systems, is a company, which is located in Nuremberg and was founded in 2010. Umirs Germany provides products for effective protection of objects without surveillance as well as products to secure doors, large outdoor areas and complete house fronts.

**lindbaum GbR**  
**digitalize business – web-design, eCommerce and online marketing solutions with measurable results**

lindbaum was founded in Bremen, Germany and is specialized in the digitalization of business models, processes and communication. With 20 employees at 2 locations, lindbaum supports medium-sized businesses by systematic digital transformation through online marketing, websites, online-stores, CRM systems and web analytics. For installers and retailers with a regional catchment area, lindbaum offers measurable search engine marketing (with evaluation of calls) and the transformation of the website into a sales tool.

**barox Kommunikation AG**  
**Network technology for CCTV – The No. 1 in PoE!**

barox provides network technology for CCTV with a special focus on PoE. barox Extender allow to supply cameras with PoE, and this directly through the existing coaxial cable or UTP cable from up to 1,000 m. Combined with a USV system, the video system also works in cases of power failure.
