

HIKVISION®

ADVANCED METADATA INTEGRATION WITH AXXONSOFT

The global cooperation and strategy partnership between Hikvision and Axxon ensures a consistent and deep level of integration between Hikvision IP video devices and Axxon Next & Intellect software. This level of integration offers advanced control of Hikvision products within the AxxonSoft. The combination of Hikvision hardware and AxxonSoft software brings unbeatable solutions to the security industry, offering easy scalability and future-proofing for any project.

ABOUT AxxonSoft

Axxon is a major software developer, combining end-to-end, IP-based physical security management, intelligent video surveillance, and an enterprise-wide platform. They offer integrated, out-of-the-box vertical and horizontal solutions for governments, institutions, and commercial enterprises.

► **Axxon Intellect Enterprise:**

A distributed security information management (PSIM) software platform combining intelligent video analytics, universal IP connectivity and event driven automation capabilities in a single environment.

► **AxxonSoft Next:**

The open-platform intelligent video management software from AxxonSoft that provides security solutions for projects of all sizes – from those of large-scale distributed facilities to the smallest.

HIKVISION

PRODUCT INTRODUCTION

Axxon has extensive support of Hikvision hardware and offers a wide range of features on native levels. Axxon Next/Intellect software integrates with Hikvision's 150 models of network and PTZ cameras, 17 models of DVRs/NVRs, 12 models of encoders and decoders, 4 models of fisheye cameras, 5 models of thermal cameras, and 2 models of access controllers through proprietary SDK and ISAPI protocol.

Basic Video Function	Advanced Features
Live View	Video Analytics Alarm
Playback	Video Analytics Metadata
PTZ	ANPR
IO	H.265
Audio	
Edge Storage	
Events	

Hikvision Technology Partner Program

Strategic Integration Partner

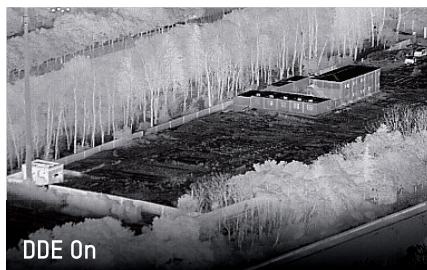

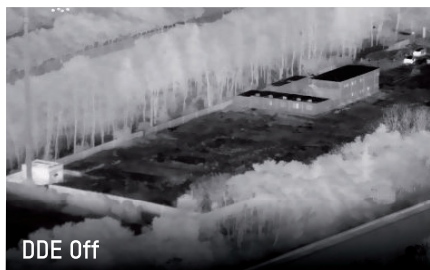

- Video Surveillance
- On-board Video Analytic
- Hikvision Fisheye Display
- Thermal Vision & Detection

Supported Device List

Axxon Next and Axxon Intellect

- Via HCNetSDK, supports video, audio, alarm I/O, PTZ, motion detection, tampering detection, line crossing, etc.
- Via ONVIF, supports all Hikvision ONVIF-compliant products and functionalities.

INTEGRATION WITH HIKVISION THERMAL CAMERAS FOR BETTER CO-VALUE PROPOSITION

AxxonSoft has fully integrated Hikvision's new and comprehensive thermal products. With license-free on-board analytics and Axxon's analytic-wise Next platform, Hikvision and Axxon form a powerful combination to bring greater values and competitiveness to the thermal market.

KEY FEATURES

- Advanced detection ability
- Accurate temperature measurement
- Excellent environmental adaptability

► Deep Metadata Integration with Hikvision Thermal Cameras

Axxon's deep integration with Hikvision thermal cameras unlocks even more powerful functions and brings customer additional values.

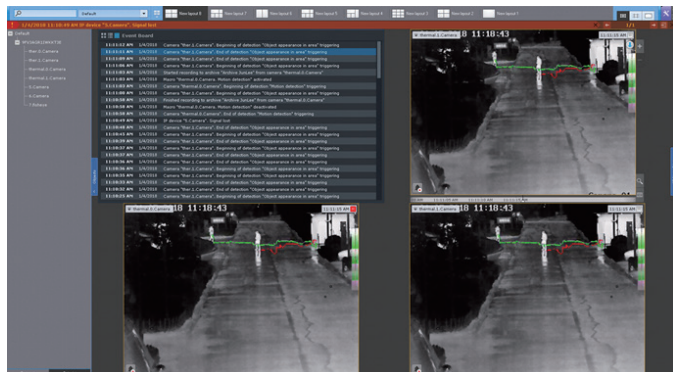

ONVIF
Metadata

► Video Analytics Alarm and Object Tracking Metadata

- View metadata in the Axxon Next client (the metadata is used to collect information about moving objects in the frame, including coordinates, direction of movement, size, and speed)
- Receive events from the camera in the Axxon Next event server

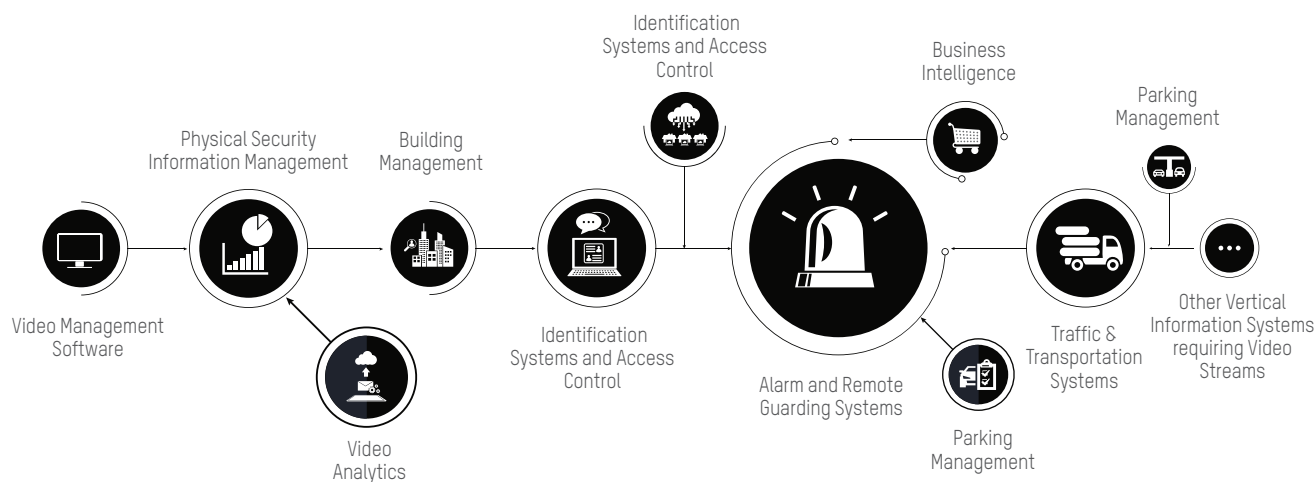

TECHNOLOGY PARTNER PROGRAM FOR INTEGRATION PARTNERS BUILD SMART SOLUTIONS WITH HIKVISION

Join Hikvision's Technology Partner Program for Integration Partners and open the door to a world of opportunities. With customers and support centers all over the world, Hikvision continually extends the reach of its innovative technologies.

We believe in strong partnerships and are eager to explore opportunities for collaboration, integration, and mutual success. If you specialize in any of these areas, consider venturing with Hikvision for exciting new possibilities:

HIKVISION PARTNER PORTAL

The Hikvision Partner Portal is a value-sharing platform on which we share our success with partners and ensure partners' business ventures succeed in every possible way. Authorized partners can access the Partner Portal online, anytime, for all kinds of helpful information.

When joining this partner program, you will enjoy access to a wealth of technical and commercial resources, and we ensure that your solution enjoys strategic marketing through our communication channels. You will also get instant access to our entire sales organization. A vital part of our program is the streamlined online communication with our technical teams as well as the tools to plan the go-to-market activities.
