

Matrix Comsec to exhibit next-gen video security, access control and telecom solutions for Enterprises at IT Expo 2019

Published on 25 Jan 2019

Matrix Comsec, global manufacturer and provider of Security and Telecom solutions, is participating in IT EXPO 2019 at Fort Lauderdale, Florida to be held from 30th Jan to 1st Feb 2019. Matrix will be showcasing its comprehensive range of people mobility management, IP video surveillance and unified communication solutions at the event. Matrix is known for its customer centric, innovative range of solutions for unified communications, IP video surveillance, access control and time-attendance applications catering to diverse and complex deployments especially for the SMB, SME and large enterprises.

SPARSH VP710 video and COSEC ARGO door controller

- Enterprise video collaboration solution, SPARSH VP710 that sets a new benchmark by offering enhanced video and voice capabilities.
- SMB IP-PBX, SPARK100, an all-in-one communication solution with enterprise-grade unified communication and collaboration.
- Next generation door controller, COSEC ARGO for the access control market. The new door controller is equipped with features like 3.5" IPS touchscreen LCD with Gorilla Glass, powerful processor for ultra-fast user identification, intuitive user experience, vandal resistant (IK08).

Matrix IP video - access control integration

Matrix will also be demonstrating seamless integration between Matrix IP video surveillance, access control and unified communications solutions, along with Matrix video management and device management software suite.

Additionally, at this event, Matrix will exhibit its range of Gateways. These gateways allow easy integration with most of IP-PBX, TDM PBX, Softswitch and hosted solutions. Award-winning series of Matrix Gateways are perfect for enterprise and carrier-class solutions for multi-site connectivity and remote survivability while offering superior voice quality and state of the art routing features.
